

Delta P

Featured Brand of the Month

VR2 Features

- User Reprogrammable
- User Upgradeable
- Air / Nitrox - 4 gases
- + Rebreather link option
- + Open circuit / SCR / CCR
- + Oxygen analyser function
- "On board" dive simulator
- Backup table generator
- User replaceable AA battery
- + Upgradeable to VPM-B
- + Infa red PC interface
- + Color Screen
- No lock-outs
- + PC link

VR3 Features

includes above features

- 10 gases
- + Air / Nitrox / Trimix / Heliox
- 99 levels of decompression
- Programmable safety factor
- Auto turn on, no wet contacts
- Adjustable backlight
- Contrast control
- 60 hours of dive logging
- Tissue loading graphs
- Dive graphing replayable during and after dives
- Fixed or variable ceiling decompression
- Total time to surface calculations
- + Rebreather interface for on line decompression

+ Denotes optional features

The Rebreather Club

Experience the Silent World at a Price You can Afford!

Benefits of Diving Rebreathers

Rebreathers extend bottom time because it recycles the gas you breathe by absorbing the exhaled CO₂, and replenishing the small amount of oxygen metabolized by the body. Rebreathers maintain a constant optimum gas mix at any depth resulting in less nitrogen absorption - equating to longer no decompression time. Rebreathers are compact and make virtually no noise or bubbles allowing you to get closer to timid marine life. Experience silent diving in a new exciting way with rebreathers.

The Rebreather Club

The Rebreather Club is the ideal choice for divers wanting to experience the benefits of diving rebreathers for a fraction of the cost. The club offers several brands for you to try and compare, and two locations to choose: Ventura and Fountain Valley. Training is included and you continue to save money with discounts on rebreather supplies, dive travel, local charters, and purchase of any rebreather purchased through The Rebreather Club. For more details call, or visit our website at www.xtremescuba.com and click on the rebreather link.
