## Concerning recall of SI TECH LP Drysuit inflation hoses batch VIE thru ZCT

Form Customer LP hose Insert removal 090406.doc Issue 090406

### UPDATED FORM 090406

**RECALL for REMOVAL** of the Flow Restriction Insert in hoses produced June 2006 thru March 2009 (Batch VIE thru ZCT, please see detailed list on [www.sitech.se](http://www.sitech.se) of all batches that are subject for removal).

**DO NOT dive with a hose subject to this recall until the insert has been removed by knowledgeable personnel.**

**INSERT REMOVAL** can be done at your point of purchase, or by a Check Point designated by SI TECH AB or the manufacturer of your drysuit (if you have obtained the hose together with your new drysuit). All other service (*and costs for such service*) but for insert removal is beyond SI TECH AB's responsibility.

**In those cases where a flow restricting insert is not found in place, SI TECH must have a full report (please use this form). DO NOT use the equipment until you have been contacted by SI TECH or its agent..**

#### Information to be filled in by USER

1. Have you removed the insert yourself? Yes      No
  
2. Has the hose been connected to anything else but a regulator 1<sup>st</sup> Stage? Yes   No
